Independent Photojournalist &
Art/Creative Director

The journey for the accomplishment of aspiration started in 1995 from Gwalior, Madhya Pradesh then Delhi, Bhopal, Indore and presently in Hyderabad.

At times, I forced to go through a history of dependence, unable to determine my own destiny but the turning point in the process of growing up was when I discovered the core of strength within myself that survives all hurt and passion for photography began with the divine inspiration from "**Lord Krishna**" It initiated from simple yet exquisite photography from a mobile camera and then to the DSLR which paved the way for amusing and excellent photography which has created a very special place in the hearts of photography lovers.

For over a decade & a half my uninterrupted efforts to ace, the innovation and inventiveness in the advertising, promotion and design work helped in edifice the stunning avenue.

I have done my **Photojournalism from New York Institute of Photography (NYIP)** and being a part of National Press Photographers Association, America (NPPA). I am attempting and investigating human life, unexpected things of our planet through my lens.

In my opinion the pristine charm of living a life is that there is no shortcut to achievement and happiness does not come from doing easy work but from the afterglow of satisfaction that comes after the achievement of a difficult task that demanded one's best.
